

ALL IN THE SAME BOAT

Victims of the Russian war of aggression, February to September 2022, numbers of people affected in short or long term, and Russian-occupied zone

excluding Crimea annexed by Russia. Differences due to rounding

Air raids threaten all Ukraine right up to the western border

Of those who have fled abroad, 90 percent are women and children. Within Ukraine, many people are unable to flee from the Russian army because of the location of the front lines and topographic barriers such as wide rivers and long reservoirs.

■ maximum extent of Russian occupation, February to October 2022
